

Member 1 Name: _____ (userid): _____

Member 2 Name: _____ (userid): _____

A. Team ready on time and correct names etc. on source modules:

Marks [0] Not ready when asked to demonstrate in lab session.

Marks [1] Ready and group member names in source files.

B. At least one Git PUSH:

Marks [0] No source files on gitLab server.

Marks [1] Source files have been pushed but object/hex/bin files are also included.

Marks [2] Only source files and a Makefile is included.

C. Program compilation and download to the UCFK4:

Marks [0] Program fails to compile.

Marks [1] Program compiles and downloads but issues warning messages.

Marks [2] Program compiles and downloads without warning messages.

D. Communications:

Marks [0] No Infrared communications.

Marks [1] Infrared communications but only in one direction.

Marks [2] Infrared communications in both directions but intermittent or unreliable operation.

Marks [3] Reliable infrared communications.

E. Display:

Marks [0] Flicker, jitter, or slowness in updating.

Marks [1] Clear display with no flicker or jitter.

F. The Game:

Marks [0] None: an operational, interactive UCFK4 game has not been created.

Marks [1] Basic: some functionality, however minimal interaction between players.

Marks [2] Good: some interaction between players, e.g., "standard" PSR game.

Marks [3] Very good: highly interactive with fast updates, e.g., a ball/missile based game.

Marks [4] Excellent: easy to use (good UI with instructions), interactive, and novel, e.g. sound.
